

\$82 Billion in Relief for Elementary, Secondary and Higher Education Facilities!

The Coronavirus Response & Relief Act has refreshed three CARES Act grant programs as part of the Education Stabilization Fund. This unprecedented package of assistance measures is being provided to State educational agencies and school districts to help reopen and sustain the safe operation of schools and address the impact of the coronavirus pandemic on our students.

Biological contaminants are common in indoor environments, especially those that are overcrowded and inadequately ventilated. Make YOUR school safer by installing **ISON™ PureMotion™ UVC**, designed to sanitize air and eliminate various airborne viruses, bacteria, mold and fungi including COVID-19 and variants. ISON™ PureMotion™ UVC also helps to balance air temperature and reduce HVAC loads without the use of filters requiring frequent replacement.

The Department of Education is awarding funds to eligible entities, most without the need for a lengthy application process.

ACT NOW to retrofit your school with our healthy, safe and sustainable air movement solution before these funds are gone!
